Drawings

This application has been filed with informal drawings which are acceptable for examination purposes only. However Formal drawings are required with a response to this office action.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Quilter(2389578).

Quilter shows all the details of the claimed parachute with the line and hook attached to a high place (aircraft) and a drogue chute and tube 10 for main chute and a harness.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Christopher (6705572) in view of Quilter (2389578).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to place the rescue device of Quilter in the bag of Christopher than

all elements would be accessible when it was removed from the bag and the parachute of Quilter will operate without a pressure tank.

1. Claims 4-13 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from other multi-dependent claims. See MPEP § 608.01(n). Accordingly, the claims 4-13 have not been further treated on the merits.
